Industry Experience Projects – Case Studies

- ❖ Health Care
  - ○ <u>Pharmacy E-Commerce Web Portal solution</u>:
    WKS developed an E-Commerce Web Portal solution for pharmacies which gave their customers the ability to order proscription refills online resulting in increased revenues and lowered costs for the firm.
  - ○ <u>Medical Records Management System :</u>
    Compiled, deployed, hosted, and supported system which resulted in decreased costs and improved issue response times.

Past Performance

WKS was founded by Hannington Musinguzi, a veteran IT executive – Vice President of Software Development at Merrill Lynch and Nutrisystem, to help organizations align their strategic business objectives with technology deployment. The solutions delivered to our clients provide innovative ways to increase profits, reduce risk, predict trends and turn IT assets into competitive advantage.

WKS Principals have over 65+ (combined) years experience in the IT field working as Programmers, Software Architects and Executives. The Principals possess experience in various industry verticals including: Financial Services, Retail, Government, Telecommunication, Manufacturing, Healthcare, and Education.
